

Water Level Meters

Keck ET and ETL Portable Water Level Meters

The Keck ET and ETL Portable Water Level Meters, are designed to provide reliable and accurate measurements of groundwater levels. Water level readings are conveniently taken at the top of the casing with accuracy to within 1/100th of a foot.

FEATURES

- ET has an extremely durable polypropylene storage reel with rugged solid aluminum frame
- ETL is on a lightweight steel and aluminum storage reel for easy transportation and durability in the field
- Highly accurate Polyethylene coated steel tape marked in engineering or metric increments
- Field serviceable 5/8" probe with stainless steel conductors for durability
- Adjustable sensitivity to prevent false triggering
- Audible and visible alarms activated when the probe makes contact with water
- Easily replaced 9 volt battery
- Water resistant padded carrying case to protect instrument (optional)
- Built in reel hanger on ET models and included Tape guide for longer tape life.
- An optional 3/8" non field replaceable probe is available
- MDPE and Tefzel® coated steel tape available upon request

Keck ET Water Level Meter (Bag optional)

Keck ETL Water Level Meter

5/8" Field Replaceable Probe

Optional 3/8" Probe

Optional White MDPE Tape

SPECIFICATIONS

Size:	Reel	13 in. H x 11 in. W x 7 in. D
	Probe	5/8 in. O.D. x 6 1/8 in. L 3/8 in. O.D. x 6 in. L (optional)
Length/Weight (ET):		100 foot / 30 meters = 9lbs
		200 foot / 60 meters = 11lbs
		300 foot / 100 meters = 14lbs
Length/Weight (ETL):		500 foot / 152 meters = 20 lbs
		750 foot / 229 meters = 24 lbs
		1000 foot / 305 meters = 28 lbs
Accuracy:	ET Tape	100th of a foot / 100' (Per Federal Specification GGG-T-106E)
Material:	Reel	Polypropylene and Aluminum (ET) Powder Coated Steel and Aluminum (ETL)
	Tape Probe	Polyethylene Coated Steel Teflon® and Stainless Steel
Power:		9 Volt DC Alkaline Battery
Alarm:		Audible and Visual
Warranty:		1 year
