NEW Features

DF1000D

BUILT FOR SPEED...
If You Are Looking For Speed
And Precision, The DF1000D
Is Your License To Fly

Enjoy Your Freedom...

DF1000D • High Speed Digital Depth Sounder

Why the DF1000D? Today's high-tech, multipurpose fish finders are designed to produce a range of readings from bottom contour, fish location, and thermoclines, to a variety of other useful sonar data. However, the technology used to decipher between these different signals coupled with the configuration of their specialized transducers greatly reduces their ability to give instant bottom readings. The HawkEye® DF1000D Digital Depth Sounder is engineered to give precise depth readings from 2.5 to 200 (.7 to 60.9 M) feet, at speeds up to 63 mph (101 kph). **Say goodbye to the days of not knowing the depth while running your boat on plane.**

Display with Patented White and Black Face and Bezel

- Algorithmic Programming Significantly Reduces False Readings and Produces Unmatched Precision
- Instant Depth Updates to the Nearest 1/10th Foot or Meter (under 99.9 Feet) Updated Four Times Per Second
- **NEW!!!!** Smart, Digital Programming Allows Use Side by Side with Other Sonar Devices; Even Fish Finders
- EasyTouch Programming™ Permits One-Touch Access to the User Adjustable Settings
- **NEW!!!!** User Programmable Keel Offset Automatically Adjusts Depth Readings for Vessels' Draft Requirements
- User Selectable Feet or Meter Readout
- Dual Upper and Lower Depth Alarms Can Be Set Throughout the Full Depth Range
- 3-Stage Advanced Warning System™ Clearly Signals an Alarm Condition with an Audible Alarm, LED and LCD Indicators
- One-Touch Alarm Muting
- **NEW!!!!** Automatic Memory Retention of All User Settings
- **NEW!!!!** High Speed, Dual Mount Transducer (Transom/In-Hull)
- **NEW!!!!** ShootThru™ Sonar Technology Allows Readings to be Obtained Through Solid Fiberglass and up to 1/8th Inch Aluminum Hulls
- **NEW!!!!** Removable Transom Transducer Bracket for Low-Profile In-Hull Mounting
- HawkEye® Transducer Exchange Program Adapts to Special Mounting Needs
- Patented Removable Face System - System Includes Both White and Black Color Combinations
- **NEW!!!!** No Glare, Polarized LCD Icon Display - Spot Free Viewing With or Without Sunglasses
- Largest Display Available on an In-Dash Depth Sounder
- SoftGlow™ Backlit Display and Programming Keys- Low Intensity, Low Temperature Lighting Prevents Eye Strain and Condensation While Providing Unparalleled Nighttime Viewing
- **NEW!!!!** Flush Mount Extension for Mounting In Extra Thick Dash Panels
- **NEW!!!!** Waterproof Transducer Plug
- Waterproof Front Face
- Two-Year Warranty

NEW!!!! High-Speed, Dual-Mount Transducer (Transom/In-Hull)

SPECIFICATIONS

Colors	White/Black Interchangeable
Mounting Location	In-Dash, Surface (requires MB01)
Unit Dimensions	2" Diameter, 1.75" Depth
Display Window Size	1.65" x .87"
Display Type	Polarized LCD
Backlighting	Green SoftGlow™ Display and Buttons
Power Requirement	11-14Vdc, 200mA Max
Current Drain	40mA, Nominal
Units of Measure	Feet (Ft) and Meters (M)
Readout	2.5 to 99.9 Ft, 100 to 200 Ft (.7 to 60.9 M)
Depth Range Min.	2.5 Ft (.7 M)
Depth Range Max.	200 Ft (60.9 M)
Transducer Type	Combination Transom/Glue In (In-Hull)
Transducer Frequency	200 KHZ
Transducer Beam Angle	25 degrees, -10db
Transducer Cable Length	30 Ft (9.1 M)
Alarm Signaling	Audible, Red LED, Blinking LCD Icons
Upper Alarm Range	3-200' Full Range (1 to 60.9 M)
Lower Alarm Range	3-200' Full Range (1 to 60.9 M)
Warranty	2 Years

Accessories

FLEXIBILITY

Whether you're a consumer, dealer, or a boat builder, NMP offers flexibility to make the DF1000D your very own.

MB01 - Allows surface mounting of the DF1000D

Add a custom look to the DF1000D with these attractive Alloy Bezels. All are solid metallic alloy and are specially coated to withstand oxidation and corrosion.

- **BZ03** - Gold Bezel
- **BZ04** - "Brushed Stainless" Bezel
- **BZ05** - Chrome Bezel

BOAT BUILDERS AND DEALERS ONLY

Imagine having your Company's identity affixed to the dash of every boat that you sell or service. The DF1000D's face can be customized with logos, phone numbers, slogans, etc., to meet your specific marketing needs. Contact a NMP Representative, or distributor for details.
