

LBOD Stirrer Replacement Kit

Items supplied with 5850800*

- Stirrer with rubber paddle
- Bearing clip

Stirrer replacement

1. Remove the bearing clip using a small, straight-blade screwdriver (see [Figure 1](#)). Pry the clip away from the probe body until it is disengaged. Discard the bearing clip.
2. Lift the stirrer out of the bearing pocket. Discard the old stirrer assembly.

Note: If the stir rod has broken off, remove the old bearing. Apply a screwdriver tip at the front end of the bearing and pry away from the probe body.

3. Insert the new stirrer assembly. Push the bearing end in the bearing pocket. Push the front end of the stirrer to make sure it is fully inserted in the bearing pocket.
4. Push the new bearing clip in place until it "clicks" in position. If necessary, use the flat end of the small screwdriver to apply pressure to the bearing as it is pushed in place.
